

Mohammad Saqib

UX Expert | Design Manager | Enterprise Product Design Leader

Bengaluru, India | +91-8861062786 | saqib0701@gmail.com

Portfolio: <https://saqibansari.github.io/Myportfolio> | LinkedIn: <https://linkedin.com/in/mohammad-saqib-14664522>

Design leader with 14+ years of experience, including 12+ years in UX, delivering enterprise products across industrial automation, healthcare, consulting, and technology domains. Currently serving as a UX Expert at Siemens Technology, leading end-to-end product design initiatives, mentoring design teams, and driving cross-functional collaboration with product, engineering, and business stakeholders. Brings 3+ years of people management experience with expertise in enterprise UX, design systems, workflow optimization, and AI-enabled product experiences. Passionate about leveraging generative AI to enhance user experiences, streamline design processes, and translate complex business challenges into intuitive, scalable, user-centered solutions.

Work Experience

UX/Usability Expert - Siemens Technology

Aug 2021 - Present

- **Lead** UX strategy across 10+ enterprise products supporting industrial automation workflows, improving consistency across platforms and reducing design rework during development.
- **Mentored and coached** a team of 6–8 UX designers through design reviews, career development, and project planning, improving design quality and delivery consistency across multiple product teams.
- **Partnered** with Product Managers, Architects, and Engineering Leads across multiple business units, reducing design decision turnaround time and improving cross-functional collaboration.
- **Shape design direction** from research and ideation through delivery for complex workflows and platform experiences.
- **Contributed to innovation** recognized through an approved patent related to UX for Ontological Gatekeeper.

Associate Manager - HTC Global

Mar 2019 - Aug 2021

- **Managed** collaboration across distributed and overseas design teams for SABIC India and Monsha'at engagements.
- **Led stakeholder coordination** and design workspace management to improve team alignment and execution.
- **Contributed hands-on UX design** for SABIC intranet and multiple product initiatives, including mobile and design-system-related work.
- **Supported scalable design practices** through work on the SABIC design system and enterprise product experiences.

Senior UX Engineer - Marlabs Innovations

Jun 2015 - Mar 2019

- **Delivered UX solutions** for enterprise and digital workplace applications for global clients.
- **Designed SAP/UI5** based enterprise applications and internal business platforms.
- **Conducted user research, wire-framing.** Delivered UX solutions for enterprise and digital workplace applications for global clients., and usability evaluations.
- **Worked closely with development teams** to ensure successful implementation of UX recommendations.
- **Helped modernize user experiences** across multiple business applications.

Senior UX Analyst - Boston Consulting Group

Dec 2014 - May 2015

- **Designed** enterprise and business-facing applications for consulting and technology clients.
- **Created user-centered** designs for B2B and intranet applications.
- **Facilitated stakeholder workshops** and requirements gathering sessions.
- **Developed** wireframes, user flows, and interaction models for complex workflows.

Process Analyst - Accenture

Feb 2014 - Dec 2014

- **Supported UX** and process improvement initiatives for **Google** internal products.
- **Developed** wireframes, user flows, and interaction models for complex workflows.

Web Designer - Indegene Lifesystems

July 2012 - Feb 2014

- **Created web and mobile solutions** for Pfizer, Novartis, and GSK.
- **Developed user interfaces** focused on engagement, usability, and accessibility.
- **Partnered** with business and technical teams to deliver customer-focused solutions.

Process Executive - Infosys

Aug 2011 - Jun 2012

- **Supported design and business process** activities for enterprise applications.
- **Gained early experience in user-centered design,** stakeholder management, and digital product delivery.

Core Competencies

Design Leadership

- Team Leadership • Design Management • Design Strategy • UX Governance • Organizational Design Maturity • Design Reviews • Design Operations • Performance Coaching • Talent Development • UX Metrics • Design Operations

AI & Emerging Technologies

- Generative AI for Design • Figma Make • Github Copilot (GHCP) • UX Pilot • Prompt Engineering • AI-Augmented Research • AI-Powered Content Generation • Human-AI Interaction Design

Product & UX Strategy

- Product Thinking • User-Centered Design • Design Thinking • Opportunity Discovery • Customer Journey Mapping • Service Design • Information Architecture • Experience Strategy • Outcome-Driven Design • Product Roabmap

Research & Validation

- User Research • Stakeholder Interviews • Usability Testing • Behavioral Analysis • Customer Insights • Data-Informed Decision Making • Heuristic Evaluation • Customer Experience (CX)

Experience Design

- Interaction Design • Wireframing • Prototyping • Design Systems • Enterprise UX • SaaS Platforms • Mobile Applications • Industrial IoT Experiences • AI-Assisted Experiences

Design & Collaboration Tools

- Figma • Miro • Axure RP • Adobe Creative Suite • Sketch • Jira • Confluence • ProductPlan • Zeplin • VS Code

Certifications

User Experience & Human-Centered Design

- Human-Computer Interaction (HCI) — Interaction Design Foundation (IDF)
- Interaction Design for Usability — Interaction Design Foundation (IDF)
- Dynamic User Experience: Design & Usability — Interaction Design Foundation (IDF)
- Mobile User Experience (UX) Design — Interaction Design Foundation (IDF)
- Emotional Design — Interaction Design Foundation (IDF)
- UI Design Patterns for Successful Software — Interaction Design Foundation (IDF)

Research & User Insights

- Measuring User Experience — Human Factors International (HFI)
- Analyzing User Data — LinkedIn Learning
- Usability Testing Foundations — LinkedIn Learning

Artificial Intelligence & Emerging Technologies

- UX for Artificial Intelligence — LinkedIn Learning
- Advanced Prompt Engineering Techniques — LinkedIn Learning

Digital Product & Business Strategy

- Fundamentals of Digital Marketing — Google

Education

Bachelor of Technology (B.Tech.), Computer Science & Engineering

Integral University, Lucknow, India | 2010

ISC [12th standard]

Boys High School, Prayagraj, Uttar Pradesh | 2004

ICSE [10th standard]

Boys High School, Prayagraj, Uttar Pradesh | 2002
